NUMBER 238

Two Killed and Several Wounded in Strike Riot

Strikers Attacked Strike-Breakers and a Battle With the Police Followed

(Bulletin Special)
Buckingham, P.Q., Oct. 8.—A strike riot took place this afternoon between two hundred former employees of the James McLaren Co. mill and twenty-two policemen, who were guarding a band of seventeen strike-breakers, resulting in two strikers being shot dead and several severely wounded. The police were finally driven from their positions. The dead are Thomas Belanger and Xavier Theriault. Belanger was the leader of the strikers and the president of the union formed a month ago. The injured strikers are Felix Fauvalle, shot through the abdomen and not expected to live; Blaisie Cismow, shot in the arm and head; Felix Lacelle, shot in the arm; Aelard Hamelin, four shots in the arm; Edward Minor, shot in the legs; Xavier Tremblay, shot in the arm and leg; Louis Renaud, shot in the back; Louis Verre, shot in the wrist; Herbert Verre, of the Montreal police contingent, was shot, perhaps fatally. Other policemen badly wounded are Frank Keen, his brother James, Peter Pickard, Leyotte and some others. The labor trouble began a month ago when three hundred men asked for an increase of twenty-five cents a day from a dollar and a quarter. The McLaren Co., one of the biggest lumber concerns in Canada, responded by closing the mills. Three hundred of the strikers drifted away to the shanties, and the balance remained as a solid guard to keep the mill from working. The company would make no concession, and reconciliation became more remote as the time went on. Finally when seventeen strike-breakers were observed bringing logs through the dam, the strikers held a meeting and decided to attack. They carried several rifles. The policemen were armed only with revolvers. The men said they intended to stop operations by physical force and would not have fired, but the police fired first. The police shot the men first and then Belanger was leading and fell after three bullets passed through him. The other victim was in the rear. Alexander and Albert McLaren, armed with revolvers were helping the police. The riot lasted about half an hour when the police were driven off. The presence of death among them pacified the strikers, but they say they will elect a new leader and keep up the contest if the mill starts again.

Trencher Working

Taylor Construction Co. Start the Big Ditching Machine This Morning on the Fifth Street Sewer.

The Taylor Construction Co.'s big trenching machine was started today on Fifth street, and if it keeps up to first appearances there is no doubt that it will make good the claims made for it, that it can do the work of 100 men. In construction it resembles an upright traction engine more than anything else, with the straw carrier down in the ground instead of up in the air. Scrapers like the things that carry a log up a chute in a sawmill, tear the earth out of the trench, and scrape it up into a conveyor belt which runs it over to the side of the road clear of the machine. The amount of earth that the conveyor belt spills out along the roadside is simply amazing, and the machine, which travels on its own tracks, is kept constantly moving forward as the ditch is dug. It was 8 o'clock when the machine started this morning, but an interested crowd of spectators had gathered around before it had been running five minutes, and all day long an interested assembly of "rubber necks" watched the big trencher dig. The Taylor Construction Co. has the distinction of using the first improved trencher made in Canada. Their machine is No. 1 of the Municipal Traction Co.'s machines made in Montreal, and Edmonton is the first city in Canada to have machine made sewers. The trencher has one advantage over all other processes of sewer construction in the respect that it will work as well in the winter as in summer.

THREE HANGED.

(Bulletin Special)
Warsaw, Oct. 8.—Three terrorists were hanged today after a drumhead court martial.

The Alberta Exhibit

Is a Centre of Attraction at the Dominion Fair.

Hallifax, Oct. 8.—The exhibit of grain from the province of Alberta is proving one of the largest attractions in the main building at the Dominion exhibition, Halifax. Each day the exhibit is visited by thousands and scarcely a minute passes but some one remarks "Oh, this is the exhibit we were told to be sure to see." The exhibit is upstairs in the main building and occupies a space about fourteen feet wide by 30 feet deep. The front and about ten feet on each side are open. Two great pillars made of sheaves of grain stand at the front corners. These pillars are about four feet through and fifteen feet high. The walls are covered with almost every variety of grain that grows in Alberta. The frame work of the window which is the full size of the back is all covered with Tatar King oats. All the decorating for the background is also done with oats and no bunting is used in the whole exhibit. In front stands a table about three feet high, the sides and ends of which are completely hidden by sheaves of grain all the way bright. The table is used to display the 25 or 30 samples of grain in bulk, coal, coal oil, etc. Behind this table is another, but lower table similarly decorated and used to store the surplus grain in bulk. Next comes the table containing the literature supplied by the several boards of trade. The greatest attraction of the exhibit is the wheat field at the back. The field is about six by fourteen feet and the grain stands just as if it were ready to cut. It is held in place by wire netting at the top and bottom, each straw having to be inserted separately through the netting. Above the field shines a sun about two feet in diameter. It is made with bearded wheat and reds and yellows of red cardboard. Hanging inside it is a hand sign which reads "He always shines in Alberta." Nearly every one who sees the exhibit is so much pleased with the effect that all sorts of questions are asked as to how it is possible to get the grain to stand up so naturally. The light is supplied at night by an electric sign which reads "Alberta" and makes the exhibit the brightest place in the building. Mr. Frank Webb of Edmonton, is representing Northern Alberta. The decorating of the exhibit was done by Mr. E. L. Richardson, of Calgary, who also represents Southern Alberta.

Latest Despatches

BOYD WILL RETIRE.

(Bulletin Special)
Toronto, Oct. 8.—Chancellor Boyd of the High Court of Ontario, who has completed 25 years on the bench and is 70 years old, will take six months leave of absence and then resign. He will draw a pension of \$600 yearly.

STOLE UNION'S FUNDS.

(Bulletin Special)
Toronto, Oct. 8.—Samuel Jackson, former treasurer of Iron Moulders' union No. 28, was arrested Saturday night at Parkdale on a charge of stealing \$250 of union funds. Jackson left the city over six years ago and the charge has been hanging ever since. He returned last week and went to work but the moulders caused his arrest.

TOO MUCH SPECULATION.

(Bulletin Special)
Montreal, Oct. 8.—E. S. Clouston, general manager of the Bank of Montreal, just returned from a trip to the west says "Senator Forget was quite right when he expressed the opinion that there are too many bank banks in the Canadian Northwest." Mr. Clouston says land values are mostly alright but speculation is too prevalent and he fears the results.

DYING MAN FOUND.

(Bulletin Special)
Montreal, Oct. 8.—James F. Fielding, accountant of Manse street, St. Louis du Mile End, was found beneath the C. P. subway near Long Ferry wharf with his skull fractured and several ribs broken on Saturday night. He died at Notre Dame Hospital yesterday without regaining consciousness. It is not known whether he fell or was set upon by highwaymen. His gold watch and pocketbook were missing but a chain still remained attached to his button hole.

Peace in Cuba

Only One Province Now Torn by Political Controversy.

Havana, Oct. 8.—Reports received by the provincial government show that the pacification of Cuba is practically complete, with the exception of the province of Santa Clara, where matters are rapidly nearing a settlement. The only trouble known to exist is at Alquizar, province of Havana, where the liberals and moderates are about equally divided and irritation has been caused by the reinstatement of a liberal mayor. It is believed that the thirty rural guards there will be able to keep the peace.

Barge Blown Ashore

Terrific Gale Blowing On Lake Superior.

Houghton, Mich., Oct. 8.—A terrific gale is raging on Lake Superior tonight. The barge Pasadena, in tow of the steamer Gladstone, was blown on the rocks, and is a total wreck. Three of the crew were drowned, while several others reached the shore after a terrific battle. A number of vessels are sheltered in Lily Pond harbor. Others have started out in face of the storm and anxiety is felt for their safety.

"CANUCKS" By the Cartoonists.

IN THE PUBLIC EYE

(Registered in accordance with the Copyright Act by the newspaper Art and Cartoonists of the City of Canada.)

HON. SENATOR COX

Hon. George A. Cox was born in Colbourne, Northumberland Co., Ont., and was educated at the public and grammar schools there. In 1856 was appointed operator for the Montreal Telegraph Co., at Colbourne, and in 1858 moved to Peterborough, to take a similar position with that company. From 1858 to 1871 he was actively engaged in life and fire insurance and real estate business in Peterborough, and in the latter years was appointed president and general manager of the Midland Railway, which position he retained until the road became part of the G. T. R. in 1884. At the present time he is president of the following institutions: Canadian Bank of Commerce, Central Canadian Loan & Savings Company, Western Assurance Co., Canada Life Assurance Co., Crow's Nest Pass. Coal Co., and the Toronto Savings and Loan Co., and is also director of the National Trust Co., Canadian General Electric Co., the Dominion Iron and Steel Co., and the Toronto Railway Co. He is also a member of the University of Toronto. He was mayor of Peterborough for several years, and in 1871 was elected for West Peterborough to the House of Commons, but the election being declared void, a new one was held and he was defeated by a majority of one. He ran unsuccessfully for same riding at general election, 1887. He was appointed to the Senate Nov. 13, 1896. He is a prominent Liberal and a member of the Methodist Church.

STRONG BOX RIFLED.

(Bulletin Special)
Paris, Oct. 8.—A sensation has been caused by a despatch from Cartagena, Spain, to the effect that the quire into the wreck of the Italian steamer Sirio on Romigias Island in August with a loss of 150 lives reveals the fact that the strong box of the steamer though hermetically sealed was empty indicating that the crew were implicated in the wreck.

NEWSPAPERMAN SHOT.

(Bulletin Special)
Minneapolis, Oct. 8.—William A. Dowell for twenty-five years a prominent newspaperman of the Twin Cities was shot and killed on Sunday by John Quirk, the enraged stepfather of Bessie Squires, 21 years, with whom he is alleged to have been intimate.

Carbolinum Block

W. H. Harvey of Vancouver Wants An Order for Paving Material For Jasper Avenue and First Street.

W. H. Harvey of Vancouver, B.C., manufacturer of the carbolinum block for street paving is in the city today and is conferring with the commissioners and aldermen with a view to placing an order for paving block for Edmonton for next year. Mr. Harvey is the maker of the celebrated Douglas Fir carbolinum block with which Vancouver and a considerable part of Seattle is paved. He has a large works on Coal Harbor where the blocks are sawn from the native fir, cured, treated with carbolinum and turned out ready for use as street paving material. He is taking a run through the Northwest to look up the possibilities for the coming year and in Calgary, the first city visited he placed an order for 25,000 yards of block paving. Mr. Harvey took the contract for the paving in Calgary, but as his firm is a manufacturing and not a contracting concern he is not looking for contracts for the work but for orders for the block. Speaking of the situation in Edmonton he gives it as his opinion that this city is as much in need of pavement as Calgary and that the time has arrived when the city should be framing its program for next year. Incidentally Mr. Harvey is a believer in municipal ownership and was pleased to find Edmonton in control of its franchises, giving it as his opinion from experience gained on two continents that the city should undertake the construction of a car line along with the paving of the business section. He is not clamoring for orders, as his plant already has close to its capacity looked from Vancouver, Calgary, Seattle, Toronto and Ottawa, but he wants to introduce the carbolinum block here in view of future possibilities. From Toronto he has an order for block for Wellington street in its most travelled part and in Ottawa he is introducing the fir block on some of the most beautiful streets of the capital. Mr. Harvey will be in the city today, tomorrow and will probably visit Regina and Winnipeg before returning to the coast.

Other Provinces Want Terms Similar to Those Granted Alberta and Saskatchewan

(Bulletin Special)
Ottawa, Oct. 8.—The provincial premiers met here today. All were present and Sir Wilfrid Laurier, Hon. A. B. Aylesworth, Hon. W. S. Fielding and Hon. R. Lemieux met them. Sir Wilfrid gave an address of welcome and left with his colleagues, to let the provincial representatives consider the program to be followed. Premier Gouin took the chair. The Quebec resolutions were discussed and the meeting adjourned early in the forenoon to let the Alberta and Saskatchewan representatives look over them to see if they could support them. At the afternoon session the westerners did not see anything to oppose and there were several things recommended. A difficulty then arose with Ontario. Whitney wanted to support the resolutions but he opposed them when Ross agreed to them and he desired some change to maintain consistency. A committee appointed to redraft the resolutions and they will be submitted to the full conference tomorrow and afterwards handed to the Dominion Ministers. Ottawa, Oct. 8.—(Continued) The committee of the provincial conference has drawn up a resolution which will be presented to the Federal representatives tomorrow and will consist of half a dozen lines. It will declare that in the interest of Canada

"SOLDIERS OF FORTUNE."

"Soldiers of Fortune," a medieval romance with plenty of tragic situations, and scope for heavy acting, held the boards at the Thistle last night, and interested and entertained an audience of close to 1,000 people.

The story is one of conspiracy, in which a designing old chancellor tries to sidetrack the real heir and place his son on the throne of a small German principality. All the human passions came into play, and the conspirators sink deeper and deeper in the meshes of depravity and crime until finally Victor Von Tellremund, the chancellor's son, played by Clifford Lane Bruce, tries to poison his father and is only prevented by Sir Rupert the Wanderer, the hero of the piece, played by Harold Nelson. Pearl Rescor as Princess Yefive makes a very pretty character and carries her part with rare dramatic ability, while Marie Goodrun as Countess Sylvia, makes a pretty villainess, capable of any devilment necessary to the success of the play. There are no dull moments in the "Soldier of Fortune," and except for the fact that the janitor got too interested in the play to remember about heating the hall, it was a thoroughly enjoyable evening.

The Nelson and Bruce Co. will produce Henry E. Dixey's famous comedy, "Facing the Music" at the Thistle Rink tonight. The scene this play is laid in London and the scene is built around a young married man who tries to explain his late return home by telling a white lie to his wife. Of course this gets him into no end of trouble, and it takes two hours of side splitting explanations before the tangle is unravelled and the husbands go home with the firm resolve never to tell a lie to their wives no matter how late they may stay out at night.

Are You Looking for Re-Orders?

It is not from your orders that you make money; it is the re-orders that profit.

Have you a system that shows you the exact time to go after re-orders?

Would it pay you to put in a system that would show this?

You should be able to tell at a moment's notice how much goods you are selling, what the price is and what profit you make.

You should have everything in black and white with no room for slipshod errors from verbal orders.

You cannot afford to have your time taken up trying to carry these things in your head.

Business Systems are not sold ready-made—they are designed individually to fit your particular case.

Business Systems relieve you of the detail and still look after it systematically so that reliable information is in front of you the moment you require it.

Business Systems will clean out the rubbish in the big drawer of your desk and sort the facts so that they are ready when you want them.

Your request will bring detailed information by return mail. Address:

THE RAILWAY QUESTION SOLVED

In endorsing the bylaw enabling the council to complete the conditions of the agreement with the Grand Trunk Pacific the ratepayers brought the proposition out of the realm of chance and settled definitely the direction from which the road shall approach the city, how and where it will traverse the town and where its terminals are to be located. This in itself is a matter of no small consequence. The subject has been before the city for something like two years, has been negotiated and discussed and the net result of the negotiations and discussion has been that the chance of the city securing all that was desired grew steadily less. There was no good reason to suppose that this trend of affairs would be altered and therefore no reason why the city should expect to gain by protracting the uncertainty.

In its general results, as fixing the route of the railway and its terminals, the agreement is generally very satisfactory and the opposition which was offered to it was offered on account of details granted as conditions of securing these results.

The first of these results is the independent position in which the city is placed regarding railways in the future. With even one railway Edmonton could not afford to assume an indifferent, least of all an antagonistic attitude, toward other railways which might enter the district, however much the interests of the city might demand such attitude. With two railways, and one of them a transcontinental, Edmonton can treat with all comers hereafter on the basis of her rights rather than her needs. With a railway which began at Edmonton and ended at the Great Lakes, it was by no means impossible that her future might be crippled, or even destroyed by the antagonism of a more powerful road, or a combination of more powerful roads, devoted to the development of a rival community. With two railways centering here and touching nowhere else west of Winnipeg, the commercial supremacy of the city is assured and to this commercial centre all other railways seeking a share of the western traffic must secure an entrance. The position of the city is thus changed from that of a suitor to that of the object sought for. Instead of Edmonton seeking the railway, the railways must hereafter seek Edmonton and instead of trying to persuade railways to enter the city, our part will hereafter be the more pleasing one of fixing the terms on which they shall be permitted to enter the city.

A concrete example of this changed condition is our changed attitude towards the C.P.R. Two years since the C.P.R. could have dictated the terms on which it would enter Edmonton; a year since the C.P.R. could have entered the city and secured all the concessions it now asks for, practically without protest. That its proposals are now met with protest, is evidence that the city realizes an independence of position which it could not afford to claim a year ago. This new-found independence came from confidence that the railway question had been solved by the agreement with the Grand Trunk Pacific.

SUICIDE AT KENORA

(Bulletin Special)
Kenora, Oct. 8.—A most determined case of suicide occurred yesterday afternoon about a quarter to five when a man named John Pollard walked into Jackson's ice cream parlors on Main street and deliberately cut his throat with a razor in about fifteen minutes. He had been drinking.

WALL FELL ON STREET CAR

(Bulletin Special)
Ottawa, Ont., Oct. 9.—The front wall of the Gilmour hotel which was recently destroyed by fire fell on a passing car this morning and completely demolished it. There were only three passengers in the car and they are badly injured. How they escaped with their lives cannot be explained because the car was smashed to pieces. The motor man had his leg broken and the conductor was also injured. The street was blocked for about three hours.

To Lease Elevators

Negotiations Under Way for Turning Them Over to Private Company.

(Bulletin Special)
Winnipeg, Oct. 9.—One of the evolutions of handling the grain of the west will soon be seen in the leasing for a term of years of all the lake front elevators of the C.P.R. at Port William to private companies. It was learned this morning that negotiations are already in progress having the end in view. The name of the company that will lease and operate the elevators is not yet given out but it will be made up of Winnipeg and Montreal men.

(Bulletin Special)
Snowfall, Man., Oct. 8.—The man Girat arrived from Killarney in charge of Constable Rooke, and was arraigned before the magistrate, and when the charge was read to him, of stealing the horse and buggy, he pleaded guilty and was committed to stand his trial at the approaching assizes at Morden and will be taken there tomorrow. He admitted to selling the horse and buggy in Dakota and in a penitential mood offered to refund the money, or all he had left of it after rigging himself out in a suit of dapper clothes of American manufacture.

RE LETTER BOXES.

Edmonton, Oct. 8.
To the Editor Daily Bulletin:
I read in your column of the letter boxes to be distributed about the city. It certainly seems a good move. But I feel like making a suggestion which will be a benefit to us all in that section, whether they belong to Picard street or McCauley street. Would it not be better to have this letter box, that is to be at the corner of Picard and Klondike, placed at the bottom of McCauley street and Klondike avenue. The reason I should give in support of my suggestion is, that our city council has options on two lots right on the corner, which is intended for fire hall purposes. Would this not be a good mark in directing some stranger to the nearest letter box, and come very handy to those firemen who cannot leave their post of duty, and a central kink.

The following is a copy of a letter written to City Engineer Keeley, that will likely be dealt with at tonight's meeting of the city council.
To the Honorable Board of Commissioners of the City of Edmonton: Gentlemen:
We, the undersigned telephone operators, now employed by the city, respectfully petition that from the first of November, 1906, the minimum salary for operators be \$40 per month, with extra allowance for Sunday work. In support of this petition, we beg to call the attention of your honorable body to the following facts:
1. The salary we now receive is not sufficient to properly support us. Consider the high rents and high prices prevailing for the necessities of life, and you will concede this.
2. Our services are worth more. Our work is exacting in the extreme, and constant attention to it is most fatiguing.
3. Our salaries are extremely low as compared with competent operators receiving by women in other similar lines of work in the West.
4. We are entitled to Sunday as a day of rest, and we believe it is only fair that if that day be taken from us, extra compensation should be added.
We respectfully invite your earnest attention to this matter, for we believe our petition is fair and reasonable.
Awaiting your reply, not later than Wednesday noon, Oct. 10, 1906.
Respectfully submitted.

From this it is seen that if the liver be corrected, the bile now will be set right, that in turn will correct the indigestion, and the constipation will be cured, and it is exactly what Bileau does, and why they are so superior to ordinary medicines or purgatives. These flush the bowels, but do not get to the cause of the evil (the liver). Bileau does.

Mr. Francis Greene of Kingston (Ont.) says:—"My liver was sluggish and out of order, and I had great trouble from constipation. Every movement of the bowels had to be forced. I doctored and tried all manner of remedies, but nothing brought a permanent cure until I tried Bileau. They cured the constipation, ended the sluggish, tired-out liver feeling, and made me feel bright and buoyant."

Similar evidence is forthcoming from all quarters of the globe. Bileau cures constipation, piles, headache, female ailments and irregularities, debility, indigestion, liver chill, wind spasms, anaemia, and all disorders arising from liver and stomach derangement. All dealers and stores at 50¢ a box, or post free from the Bileau Co., Toronto, on receipt of price. Six boxes for \$2.50.

Sanitaris
Is Bottled at the Springs
Mineral water shipped in carboys and barrels and bottled at distant points—is like champagne kept over night uncorked. It's dull and flat. "SANITARIS" is bottled at the springs at Arnprior, Ontario—just as it comes from virgin rock—with all its natural snap and sparkle retained. When you drink "SANITARIS" you know you are getting water that is just as pure—just as delightful to eye and palate—as though you drank it at the springs at Arnprior. The ideal table water. Blends perfectly with wines and liquors. AT DEALERS THROUGHOUT CANADA

Rich Strong Fragrant
Blue Ribbon
TEA
You're Missing a Good Thing If You Haven't Tried It.
Lead Packets. 40c. and 50c. a pound.

MEN! MEN! MEN!

If You Want Good Value For Your Money

THE HUDSON'S BAY STORES

is the place for you to visit.

Here you will find everything you require for city and country wear. Our stock is now complete with a full line of Men's Winter Underwear, Clothing, Boots and Shoes, Fur Coats and Caps, Etc., at prices that cannot be beaten.

We pay special attention to supplying outfitters of every description; hunters, prospectors, surveyors, etc. This store is the headquarters for almost every party that leaves for the north, etc.

Men's Fleece Lined Underwear from 60c to \$1.00.

Men's All Wool Underwear, from 75c to \$3.00.

Fit-Reform

Founders in Canada of Hand Tailored Garments, completely finished.

"New Things" in Trousers.

Each succeeding season sees the standard of Fit-Reform garments raised higher.

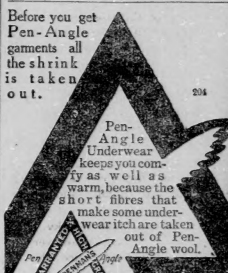

This is especially true of Trousers.

Cloths are richer—patterns handsomer—colorings more striking—than Fit-Reform has ever imported before.

Coupled with the beauty of the goods, is the peerless Fit-Reform tailoring. That is a combination that the well-dressed man finds irresistible.

"EDMONTON WARDROBE."—J. H. MORRIS & CO.

...NOTICE...
NOTICE IS HEREBY GIVEN that application will be made to the Parliament of Canada, at the next session thereof, for an act to incorporate a company to be called "The Saskatchewan Valley and Hudson's Bay Railway Company", with power to construct a railway from the city of Edmonton Northerly and Easterly following the north bank of the North Saskatchewan River to a point at or near Smoky Lake; thence either Easterly following the general direction of the said North Saskatchewan River on the North bank thereof to a point at or near Pelican Lake; thence North Easterly to a point at or near Pelican Lake or continuing North Easterly to a point South of Lisa La Crose Lake; thence Easterly to a point at or near Pelican Lake and from a point at or near Pelican Lake to Port Churchill on the Hudson's Bay.
DATED at Edmonton, Alberta, this 26th day of September 1906.
SHORT, CROSS & BIGGAR,
Advocates for the Applicants.

In a variety of fabrics, styles and prices, in all sizes for women, men and children, and guaranteed by your own dealer.

From the Semi-ready Style Book.

There may be many other Rain Coats—but you are safe with the \$15 Semi-ready "Imperva" Rain Coat.

All Top Coats of the Spring Fashion 1906—in Chesterfields and Surtouts. The \$20 line is emphasized.

They have the distinctive style which marks the well-dressed gentleman.

SEMI-READY WARDROBE—

Artic Ocean Whaling

Life and Condition of Industry at Herschel Island, the Farthest North Settlement in Canada.

Terrors of Winter.

Edwin Sprake Jones, who recently returned to Edmonton from the far north brings a rather different story of the whalers in the Arctic seas to what has usually been published from missionary and other sources.

Mr. Jones was two years at Herschel Island, one year of which was before the mounted police post was established at that point, and was two years at Fort Simpson, on MacKenzie river in the service of the Hudson Bay company.

He says the reports which qualified the whalers as a unanimously brutal outfit are all wrong, and he does not dwell to any great extent on the starvation stories so frequently published. On the contrary he regards the whalers as just ordinary white men with the usual streak of good and bad, and says that Herschel Island, instead of being a perpetual starvation land affords the best living in the north.

Mr. Jones was at Herschel Island in the winters of 1902-3 and of 1903-4. He is intimately acquainted with nearly every whaling captain who visits the Arctic waters, has spent many days on their ships, knows the sailors and is familiar with their habits and their work-day lives.

Whalers Not Whisky Traders.

"The whalers are not whisky traders as they have been represented," says Mr. Jones. "As far as I know only one whaling captain ever sold liquor to the huskies: Captain McKenna of the schooner Olga. McKenna is the man who in the winter of 1902-3 lost seven boats, three steamers and four schooners. The boats were all crushed in the ice, and the crew only succeeded in getting to Point Barrow after a hair-raising experience which has become part of the nautical history of the northern coast. They were later picked up by the Seattle mail ship, which makes regular trips from Frisco to Point Barrow, delivering mail and fuel to the whalers and traders on the northern coast. McKenna is also the first man to try whaling in the Arctic with schooners, and his experience has not been altogether an illustrious success, having failed three times to get away with a profitable catch. He is again in the Arctic this year, and, according to coast advices of a recent date, he was not expected to make good his escape from the embrace of the frost-biting but it is now thought that he is on his way south with the whaling fleet which as at the present time making its way to Frisco. McKenna has habitually violated the almost universal rule of the whalers, and has tried to make good his losses by trading liquor for furs, but when the police came to Herschel Island they put a stop to his traffic, and now there is no liquor supplied to the Indians and Eskimoes."

Eskimoes Make Whisky.

As a matter of fact, however, it makes no material difference whether the whalers supply whisky to the natives or not, as they make a kind of a vicious alcohol themselves from molasses and flour, which is about as intoxicating as anything in the "boozie" line known to civilized or uncivilized man. In the winter of 1903-4 Captain Levitt, of the Nor-whale, destroyed three gills which he found in possession of the natives. They are crude affairs, home made, with no great ingenuity displayed, but they serve the purpose, and their product in the terribly cold climate of the Arctic Ocean is about as deadly as prussic acid.

Brutality Over Advertised.

Speaking about the much-advertised brutality of the whaling captains, Mr. Jones states that most of those stories undoubtedly have arisen from the actions of Captain Cook, of the Bonhead, a New Bedford Yankee, who is described as a fiend incarnate, and for whom several charges are awaiting his arrival in Frisco. Cook is what is described as an independent operator. He owns his own ship, and has been whaling in the north for many years. He is reported as always having shown gross brutality to his men, and probably on this account he has been uniformly unsuccessful in his operations. In fact his crew, whom it is reported are all Shanghai men, are described as being in a semi state of mutiny. In the winter of 1903-4 an Indian member of the crew committed suicide on Cook's ship, and a week later another native was drowned within a few yards of the boat under circumstances that have never been satisfactorily explained. Still another man was lost off the ship just after leaving Frisco, and when he reached Point Barrow a number of the crew

Took Terrible Chances.

Edwin Sprake Jones, who recently returned to Edmonton from the far north brings a rather different story of the whalers in the Arctic seas to what has usually been published from missionary and other sources.

Mr. Jones was two years at Herschel Island, one year of which was before the mounted police post was established at that point, and was two years at Fort Simpson, on MacKenzie river in the service of the Hudson Bay company.

He says the reports which qualified the whalers as a unanimously brutal outfit are all wrong, and he does not dwell to any great extent on the starvation stories so frequently published. On the contrary he regards the whalers as just ordinary white men with the usual streak of good and bad, and says that Herschel Island, instead of being a perpetual starvation land affords the best living in the north.

Mr. Jones was at Herschel Island in the winters of 1902-3 and of 1903-4. He is intimately acquainted with nearly every whaling captain who visits the Arctic waters, has spent many days on their ships, knows the sailors and is familiar with their habits and their work-day lives.

Whalers Not Whisky Traders. "The whalers are not whisky traders as they have been represented," says Mr. Jones. "As far as I know only one whaling captain ever sold liquor to the huskies: Captain McKenna of the schooner Olga. McKenna is the man who in the winter of 1902-3 lost seven boats, three steamers and four schooners. The boats were all crushed in the ice, and the crew only succeeded in getting to Point Barrow after a hair-raising experience which has become part of the nautical history of the northern coast. They were later picked up by the Seattle mail ship, which makes regular trips from Frisco to Point Barrow, delivering mail and fuel to the whalers and traders on the northern coast. McKenna is also the first man to try whaling in the Arctic with schooners, and his experience has not been altogether an illustrious success, having failed three times to get away with a profitable catch. He is again in the Arctic this year, and, according to coast advices of a recent date, he was not expected to make good his escape from the embrace of the frost-biting but it is now thought that he is on his way south with the whaling fleet which as at the present time making its way to Frisco. McKenna has habitually violated the almost universal rule of the whalers, and has tried to make good his losses by trading liquor for furs, but when the police came to Herschel Island they put a stop to his traffic, and now there is no liquor supplied to the Indians and Eskimoes."

the mail steamer, but were overhauled and brought back to the ship by Cook and his mates and forced to finish out the cruise. The most horrible story of cruelty told against Cook was the case of a German named Rudolph, who came down on the Wrigley and went through Edmonton only a few days ago. Rudolph, for some reason, got into disfavor with Captain Cook, and he and his buco mates tied the German up by his thumbs to the rigging, where he was left hanging in terrible agony for more than a day, the captain and his mates terribly mistreating the man meanwhile. The German reports that while he hung there helpless the captain and mates kicked and punched him, using his face as a punching bag and battering his features to an almost unrecognizable pulp. Some of the men finally, sickened by the brutal treatment, made their way to the mounted police post at Herschel Island and asked the mounted police to interfere. Captain Howard refused to do so, stating that Cook was an American, on an American ship, over which he had no jurisdiction, and interference might lead to international complications.

Fitzgerald Interfered.

Sergeant Fitzgerald, however, took the matter up on his own initiative, and, going to the ship, ordered Cook to have the man cut down at once. Cook obeyed, but as soon as he cut the man down, assaulted him viciously and kicked him about the deck. Fitzgerald interfered again, and a little while after mail arrived from the German consul demanding the release of Rudolph. Cook released the man, and he was sent up to Fort McPherson, from where he worked his passage out on the Wrigley and Graham. "If luck, however, seemed to pursue the poor fellow. While the Graham was entering Lake Athabasca he was walking past a man chopping wood on the deck and got within radius of the swing of the axe, receiving a terrible cut in the arm. Dr. West, of the treaty party, inspector of the mounted police of the Lesser Slave Lake, happened to be aboard the Graham and dressed the man's wound, putting nine stitches in the wound. Otherwise he might have bled to death. A subscription was started among the passengers by Tom Kelly, and \$98 was raised to help the man on his way to Frisco, where he will await the arrival of the Bonhead with Captain Cook and his brutal mates, intending to lay charges against them for their inhuman treatment."

Cook Abused True.

This is not the only charge that is made against Cook, however. It is reported in the north that the men who went to inform the police of the captain's brutality toward Rudolph were subjected to a terrible revenge. At the orders of the captain the whole crew of 10 men were put on the grill in the engine room, where they were fed on bread and water for a week. The men were crowded in along a two foot grating, where they could neither sit down nor lie down, and there they were kept for seven days, some of them dropping from pure exhaustion into inanimate heaps against the railing. Rudolph, the German, vouches for the truth of this statement, and says that if there is any justice in San Francisco Captain Cook will certainly suffer for his inhumanity.

Cook the Exception.

Cook, however, is the unhappy exception among the whaling captains. All the others are described as good fellows who use their men well. Captain Levitt, of Nor-whale is described as a prince among good fellows, and as a testimony of his popularity it is worthy of mention that he has men sailing with him who have been with him for six seasons, and he has always done well as a whaler.

Whalers Comfortable.

Some of the boats in the north are quite comfortable, and some almost luxurious. The North Star, Captain Ben Tilton's little boat, is reported as the palace of the northern seas. She is 150 feet long, fitted out with powerful engines that give her a speed of 15 miles an hour. In the early stages of her career on the high seas, the North Star was a missionary boat, sailing in the south seas under the command of Ben Tilton. She has since been sold to a whaler under the command of Ben Tilton. She has a magnificent library, fine bath-room, a magnificent cabin, which was the chapel of the north, silver-plated compasses and fixtures which would look well on an excursion steamer.

George Tilton, a brother of the captain of the North Star, is counted as the most fortunate and skillful whale hunter of the north, and, in his tiny little craft the Alexander, he has the fleetest ship of the whaling fleet. The Alexander makes 18 knots an hour and never winters in the north. She comes in through the straits every spring, makes her catch in the brief summer season, and gets out again before the Behring is blocked by ice. George Tilton has been whaling in the northern waters for more than fifteen years, and it has never been reported of him that he failed to make a catch. In 1900 he made the record catch of the north, catching 21 whales in the brief six weeks of operations.

A Woman Whaler.

Captain McGregor, of the Karluk, commands one of the ships which was in the ice two winters, and for which fears were entertained in Frisco last fall. McGregor is a bluff, old-fashioned Scotch skipper, who gets along well with everyone with whom he comes in contact, especially with his men. His wife accompanied him to the north on the last trip, and is the first woman to spend a winter with the whaling fleet. She is a regular whaler in her way, taking great interest in the men and being a sort of a good angel to the crews imprisoned by the frost king. She is probably the only woman in the north, or any other part of the world, who has ever taken an active part in a whale hunt. She frequently goes out in the whale boats and helps capture the whales, and her picture in the stern-sheets of an Arctic

tic whale boat would be a subject of delight to the woman's page writers in the Sunday magazine sections.

Captain Cook's wife is the only other woman who has put in a winter with the whaling fleet, and she went insane last fall through loneliness and the disappointment at not getting out for the winter.

The Pacific Fleet.

The Pacific Steam Whaling Co., which owns Captain Levitt's boat, the Nor-whale, also has two others working in northern waters—this Beluga (Captain Bodich) and the Thresher (Captain Comisky)—all sailing out of Frisco. All of these three boats wintered in the north in 1905-6, being caught at Bailey Island, to the eastward of Herschel Island, and they all wanted to reach Herschel Island for the winter, but a cold snap in the middle of September locked them fast in the ice.

Captain Amundsen.

Captain Amundsen, the famous Danish explorer, who found the Northwest Passage, wintered at Kay Point with his little ship the Gjoa, and made the long overland trip from there to Circle City in the dead of winter. One of his officers died on the boat at Kay Point, and a "telegram" was sent from there all the way to Edmonton to be cabled from here to Captain Nansen in Sweden. The "telegram" was brought by runners from Kay Point to Fort McPherson, and from that point was brought to Edmonton by the Hudson Bay company's river steamers.

Captain Levitt, of the Nor-whale, by the way, is the surgeon of the north, and although not assisted by any university, is counted most successful. Since he has been in the north he has had no less than 40 amputations, to save men's lives who had suffered from frost bite.

The Levy Fleet.

Levy and Co., of San Francisco, are the heaviest operators in the north. Last winter four of their boats wintered at Herschel Island—the Karluk (Captain McGregor), North Star (Captain Ben Tilton), Wm. Bayless (Captain Cottle) and Jeanette (Captain Newth). These boats comprised the main body of the fleet which was reported in danger from starvation at Herschel Island last winter, but the men all came through in good condition, and not a life was lost in the entire Levy fleet.

Fitted Out Harrison.

Captain Newth, of the Jeanette, has the distinction of being the man who fitted out Explorer Harrison for a long and hazardous trip in Banks Land. Newth fitted the explorer out at his own expense, and the intrepid Harrison intends to spend two years in the extreme far north. If fortune favors him he will take a try for the north pole. If not, he will spend the time taking observations in that unknown land, and if he escapes the dangers of the Arctic winter will undoubtedly bring out some great scientific data for the detection of the educational academies of the east and Europe.

Bonanza Wrecked.

Captain Mogg, of the Bonanza, is the only navigator to meet disaster in the north last season. His ship was crushed in the ice in October, 1900, not far from Bailey Island, and he and his crew had to camp on the mainland for two months, at the end of which they travelled overland to Fort Yukon, and from there made their way to Seattle. The hardships and dangers of the trip will never be known, but every man in the party got through safe. Captain Mogg is from Cornwall, England, and is the only English captain of the fleet. He is noted throughout the north for the lavishness of his hospitality, and his supply of cheering beverages of the finest brands in the world is the pride of his ship, but, nevertheless, a more temperate crew never sailed in Arctic waters. Captain Mogg was the first to inform the world of the news that Captain Amundsen had made the Northwest Passage.

An Eskimoes Whaler.

The only Eskimo whaler in the north is the Penelope. She is a small masted schooner, and has the distinction of being officered and manned entirely by natives. The Eskimoes officers take their families on board, and their ideas of cleanliness are not such as would commend themselves to a health inspector, but they are nevertheless a superior class of sailors, and they handle their little ship in a way which even the white men cannot imitate.

TIPTON THROWS GINGER INTO STRATHCONA MEETING

Says Board of Trade Slumbers While Hill, Morgan, and
Rockefeller Knock at the Door and Try to Put
Them on the Main Line to Coast

The regular monthly meeting of the
Strathcona board of trade was held last
night in the council chambers.

President O. Bush presided over a
large number of members.

Secretary J. W. Blain submitted min-
utes of a previous meeting, which were
on motion adopted.

The business was then proceeded
with.

A letter was read from Mr. H. E.
Haines, secretary-treasurer of the
Brandon and Hamilton Electric Rail-
way Company, regarding the possibility
of constructing an electric railway be-
tween Strathcona and Edmonton, and
requesting information on this sub-
ject.

On the motion of Mr. Arthur Pear-
son this communication was referred to
the town council.

A communication was received from
Mr. Gettes, which held out advantages
to the board of advertising in the
"Ranch Review" at Calgary, which has
a circulation of 20,000 copies. The
price per full page was \$60 and half-
page \$32. This was filed.

An account was tendered by the
Chronicle Co. amounting to \$11 for
printing, which Mr. Peirce had received.

TIPTON CREATES A SENSATION

A great sensation was then caused
by Mr. J. G. Tipton, a member of the
board, speaking in regard to the Cana-
dian Northern Railway Co., and other
companies. "I understand," Mr. Tipton
said, "that the Canadian Northern
by their president, Mr. Mackenzie, made
some such suggestion as that of com-
ing into this town of Strathcona, with
a branch from Saskatoon. The board of
trade, or perhaps the town council, took
up that question, and there was, I be-
lieve, some correspondence passed re-
garding that matter. I don't think any
man in this board of trade tonight
knows exactly what the answer was."

In view of the current events, he be-
lieved it an undoubted fact that James
J. Hill, president of the Great Northern,
in conjunction with Mr. Pierpont
Morgan, were working hard in hand
behind the Canadian Northern as re-
gards the money aspect of the whole
business. They are the people who are
furnishing the money for the Cana-
dian Northern Railway's extensions all
over Western Canada. In this connec-
tion, Mr. Tipton continued, he would
like to know what has been done in
regard to the bringing about of that
resolution of the Canadian Northern.

"It seems to me," said Mr. Tipton,
"that things of this kind came up at
board and pass into the hands of some-
body, and nobody else knows what be-
comes of them." He thought he had a
right to know. "I am a member of
this board, and I have a right to know
the results of committees and the cor-
respondence which passes through our
hands. We cannot afford to sleep here,
and I do not propose that any commit-
tee with this matter of the C. N. R.
will be asleep—your understanding me?"

"Now, I ask for the developments of
the meeting which took place between

the board and Mackenzie & Mann re-
cently, and I want to know where we
are at."

Continuing, Mr. Tipton said that
when this Canadian Northern proposi-
tion presented itself to us, it was to us
the most important proposition so far
to be presented to Strathcona.

THE YELLOWHEAD ROUTE

Mr. Tipton expressed himself as firm-
ly convinced that the C. N. R., backed
by the Hill, Morgan and Rockefeller
crowd in New York, intended to build a
road from Strathcona right through the
Yellowhead Pass to the Pacific coast.
"If this board takes immediate action,"
he said, and properly represents Strath-
cona's case, in this respect, we can go
on the main line of the Canadian Nor-
thern, and Edmonton will be on the
branch line."

In the course of his speech Mr. Tipton
deplored the board of trade's lethar-
gy and slackness in dealing with such
important business as the possibility of
the C. N. R.'s entrance to Strathcona,
and said he was never informed by the
secretary when any special interview
was to take place.

During a heated debate President
Bush intervened and stated that Mr.
Tipton had been laboring under a mis-
apprehension in regard to this corre-
spondence which he alleged passed be-
tween railway officials and the board.
No such correspondence had passed and
the interview between President Mac-
kenzie some time ago, was informal
and only the mayor and several mem-
bers of the council and others were
present.

J. G. Tipton: "I am a member of the
railway committee and I was never
notified when President Mackenzie and
Vice President Mann were here. I
thank you, Mr. Chairman, for the in-
formation you have given me regarding
this interview and correspondence,
which I have just heard for the first
time."

SEATTLE TIMES STORY

Mr. Tipton then alluded to an article
in the Plaindealer, which was published
verbatim from the Seattle Daily Times
in a recent issue, which was of vital
importance to this district, and said he
had received more information in that
article regarding present railway move-
ments than ever he had got before.

Continuing, he said, Strathcona had got
the C. N. R. right in here just now
and it was for that reason that the
combination of Jas. J. Hill and Pier-
pont Morgan made the C. N. R. the
greatest railway aggregation upon the
North American continent. He was not
here to ask but to insist that the board
of trade and town council use their ut-
most endeavors to induce the C. N. R.
into this town and if a subsidy was
necessary, give it to them, even though
it were \$50,000. Mr. Tipton dwelt at
length upon the movements of various
railways between here and Vancouver,
and spoke with some heat against the
workings of the board of trade.

President Bush: "You had better take
this matter to the town council."

Mr. Tipton: "I do not intend to take
it to the council; I am talking to the

board of trade."

BUSH DEFENDS BOARD
President Bush thought Mr. Tipton
insinuated that the board was incapable
of doing its duty.

Mr. Tipton: "I deny making allu-
sions against the board. I simply
brought this matter up to let the board
see where they were at."

Somewhat of a scene ensued, and af-
ter considerable wrangling, Mr. Tipton
was ruled to order, and shortly after
he left the meeting.

The board proceeded with the business
of the meeting quietly, but the Tipton
incident continued to be the sensation
of the evening.

Mr. W. H. Martin reported on the
manufacturers' visit to town and said
it was very successful in every way.

The repairing of a road going east
to Clover Bar, was under discussion,
the estimated cost of repairs amount-
ing to \$500.

Dr. McIntyre, M.P.P., was instructed
to write Mr. Shaughnessy, president of
the Canadian Pacific Railway, with re-
gard to probable cost of proposed C. P.
R. bridge.

Messrs. Dr. McIntyre, Solicitor Adm-
son, and J. W. Blain were instructed to
meet the town council on the question
regarding a city charter, extension of
Saskatchewan avenue, and the tele-
phone system.

The meeting thereafter adjourned.

MERCE FIRMS IN CALIFORNIA
(Bulletin Special)

Montez, Cal., Oct. 8.—The first fire
forest fire that has occurred in Mon-
tey county for more than two
years is now raging about forty
miles south of this city. An area
of miles wide and twenty miles long
are being burned over and the fire
is spreading despite the fact that it
has been fought by large forces of men.
It is believed that nothing less than
a rain storm will stop the conflagra-
tion. Many houses have been de-
stroyed and cattle are in peril. The
great danger of the fire reaching the
heavily wooded Santa Lucia forest re-
serve. The municipal and county au-
thorities are now gathering men who
will be sent to fight the fire.

ARBUTHNOT MILL BURNED
(Bulletin Special)

Winnipeg, Oct. 8.—The Arbuthnot
company's planing mill and saw fac-
tory was destroyed by fire Saturday
night, loss \$20,000, insurance \$12,000.

NORTH BRUCE ELECTION
Ottawa, Oct. 8.—The writ for an elec-
tion in North Bruce has been issued.
The nomination takes place on Octo-
ber 23rd, and the election on October 29.
John Tolmie, who represented the rid-
ing for a couple of terms from 1896
to 1904, is the Liberal candidate. In
1904 Tolmie was not a candidate.

MARRIED IN JAIL
(Bulletin Special)

Minot, N.D., Oct. 8.—A unique wed-
ding ceremony was performed here this
afternoon in the county jail when a
man named Fred Green was united in
marriage to Nellie Miller in the goal
courder by Judge William Murray, both
the contracting parties being held in the
goal in connection with the passing of
counterfeit bills. It appears that
Green was first arrested on a counter-
feiting charge and later on an unlawful
obstruction charge with the Miller wo-
man was laid, and in order to
escape her prosecution the two were

Every steel-
plate range kept the
kitchen broiling-hot
until we found out just
how to use asbestos to
keep the heat in a cooking
range where it must cook
the food instead of cooking the cook.
THIS range is a COOL range—
lined with thick asbestos,
so the heat stays inside the
range, so the oven bakes
quick and bakes evenly.
Food is better cooked
quicker, cooled and
cooked for less fuel-
cost, and cooked with less

ONCE USED ALWAYS USED

Grand Prairie

Winnipeg Man Greatly Pleased With the Northern District.

Winnipeg, Oct. 3.—G. H. Spinks, who has been in the Grand Prairie country, some 150 miles north of Edmonton, last spring, is back in the city.

"The Grand Prairie country is about 90 miles square in extent," said he to a reporter, "and, to demonstrate its productiveness, it is only necessary to instance the fact that wheat which was sown early in May, was reaped on the 28th July and is expected to yield over 40 bushels to the acre. The really cold weather sets in shortly before Christmas and spring opens in March. What impresses the prospective settler more than anything else perhaps is the length of the day up there during the summer. We have darkness for only about three hours during that season."

"A great drawback to the district is its lack of postal facilities, but the federal authorities have promised that this will soon be remedied. The luxuriance of the grasses is simply wonderful. I saw a pea vine which would meet over a horse's back. Very few of the settlers put up any hay, cattle and horses roaming at will the entire winter. I saw one settler who had hay in the stack for fourteen years, he finding it unnecessary to feed hay."

"The prairie wolf causes considerable depredations up there, and the government is offering \$15 for the skin of the female and \$10 for that of the male. One fur bearing animal is found in great numbers further north, traps returning with as many as 500 pelts, and when it is considered that they receive \$5 and upward for skins, the profits of the business are obvious. Fish are very plentiful in the many rivers and lakes which abound in the locality, and what surprised me most of all was the richness of garden produce. Early frosts are unheard of, and vegetables ripen in the gardens. One of the settlers told me that it is a common occurrence to see water-melons in the gardens, and Indian corn and maize thrive wonderfully."

"In conversation with the provincial secretary of the Alberta government, I learned from him that he is beset with enquiries about this district. He says that literature descriptive of the region will be distributed which may result in large numbers."

NEGROES HANGED

(Bulletin Special)

Mobile, Ala., Oct. 8.—The crimes committed upon Ena May Fowler, Lillian May Fawell, Ruth Fawell and attempts on others, whose names are not given were revenged by a party of 45 men this afternoon in a lonely place just off the Holt road in the neighborhood of Pritchard's station. The leaders ordered the men who were armed with revolvers, shot guns and rifles, not to fire a shot and the orders were carried out. Robinson the negro youth who committed the first crime that started the people of Mobile and worked them up into a fury was promptly put out of the way. Thompson, the other negro was executed immediately afterwards. A long half inch rope was thrown over the limb of a live oak tree and the men were drawn up about fifteen feet. They slowly strangled to death. According to one of the leaders of the mob, the negroes confessed.

SASKATCHEWAN SUICIDE

(Bulletin Special)

Strasbourg, Sask., Oct. 8.—Reginald Horsfall, a farmer living six miles southwest of here, committed suicide today. Financial worry is supposed to have been the cause. He was unmarried and about thirty years of age. He was a native of Yorkshire, England.

RANFURLY NEWS.

Board of Trade Organized to Rush the Town's Interests.

Ranfury, Oct. 6.—At present writing our village is pretty thoroughly ringed. On Friday, Sept. 28, fire swept along the south side of the C.N.R. covering a strip about half a mile wide, and on Tuesday the 2nd inst., fire was set by the westbound local about four miles east of the village. Under gentle breezes from the east it gradually crept toward our town. About 5 o'clock p.m. the wind rose and the fire increased in velocity till about 8 p.m., when it reached the fire guard which had just been burned. The noise of the approaching fire reminded one of the roar of mighty Niagara. The fire caused a disastrous loss to the farmers as it swept bare the vast plains covered with choice grass and pea vine. No loss of stored hay or grain is reported in the immediate vicinity. But great damage is reported from the Gilpin district.

The enterprising citizens of Ranfury and surrounding community, believing that the best interests of the community can be served by working in unity, got together on Monday night, Oct. 1st and organized a board of trade.

The following officers were elected: President, Dr. Steele; vice-president, R. Blais; secretary-treasurer, G. Elliot; corresponding secretary, A. E. LaBelle; council, R. Snowball, E. Duplisses, A. Reid, T. W. Thompson, J. S. Wood, A. E. LaBelle. Motions were passed instructing the secretary to correspond with the C. N. R. management regarding building

a depot, also with elevator companies regarding an elevator. We have a good village, and a better country around our village. The purpose of the board is to advertise this land. To let the public in general know what they are missing in they do not invest in the land of promise. We mean business and are prepared to back up any statements we make.

The business formerly carried on under the firm name of Dunk & Duplisses changed hands last week, S. M. Pitman buying the interests of Mr. Dunk. The firm will now be known as Duplisses and Pitman. Some needed improvements are being made about the store, and when complete the boys will have a neat, attractive place.

Mr. Mrs. and Miss Edith Grierson, and Mrs. P. McNaughton, of Edmonton, spent a few days of last week with the latter's brother-in-law, W. D. McNaughton.

Dr. Steele spent a few days in Edmonton last week.

R. Snowball left on Oct. 4th for Pilot Mound, Man., his former home. He expects to return in about three weeks, bringing his family with him. G. Elliot spent Thursday last in Vermilion.

On Saturday Dr. Steele adjusted the dislocated knuckles of Mr. F. Hume of Innisfree. Mr. Hume was helping to build a fence when he received a blow from the post maul on the back of his right hand.

Messrs. Shipping, Armstrong and Masters of Vegreville are spending a few days at the coming summer resort, Birch Lake, duck shooting.

Mr. W. A. S. Coulter, town site agent for the C. N. R. was in town on Sept. 27th. He expressed himself as highly pleased with the progress of the village.

Ray Pitman and G. Elliot went after prairie chickens Friday afternoon last and returned with the anticipated game, also a coyote each.

BANK AT THE LANDING.

Athabasca Landing, Oct. 8.—Mr. Kirkpatrick, manager of the Imperial Bank accompanied by Mr. Beck, the bank's solicitor, arrived here Saturday. They have secured one of the Hudson Bay company's buildings here and will have it fitted up and opened for banking purposes immediately.

Capt. Dennie arrived from Fort Graham today where he has been with the R. N. W. M. P., for the past two years. He is on his way to Edmonton. Commissioner Conroy and party were on Lesser Slave River when he passed and are expected here tomorrow.

Colin Fraser's boat the last of the season for down stream points started today for Chipewyan. The steamer Midnight Sun is now beached here and laid up for the winter. Weather fine but cold.

WHAT STRATHCONA HAS

(Plaindealer)

Under this heading the following facts were contained in the small pamphlet programs presented to the Canadian Manufacturers during their visit to Strathcona.

The third largest population of any city in Alberta. Seven churches—English, Catholic, Methodist, Presbyterian, Baptist, Lutheran, Moslem.

School equipment and staff equal to the best in all the west. Railways—The C.P.R. including terminals under agreement for their north-western lines. The Edmonton Yukon and Pacific Railway transfer between the C.N.R. in Edmonton and the C.P.R. in Strathcona; definite prospects of both the C.N.R. and G.T.P. lines in the near future.

Local and long distance telephone service. Three mails daily, incoming and outgoing.

Up-to-date electric light and power plant.

An ideal waterworks and sewerage system.

The healthiest and pleasantest climate in Canada.

A 100 barrel flour mill. A 200 barrel cereal mill.

Elevator capacity for 400,000 bushels of grain.

Three pork-packing establishments of moderate capacity.

Two large saw mills. Two large brick making establishments.

One tannery. One large brewery and malt house.

One iron foundry and machine shop. One confectionery factory doing an export business.

One cash and door factory.

The best equipped coal mine in Northern Alberta with unlimited deposits of coal in site. (Steam coal \$2.00 to \$3.00 per ton)

Gold and platinum in the Saskatchewan.

Splendid building stone quarries a few miles up the river.

Marl beds and big iron deposits within 100 miles.

Great areas of timber and pulp wood along the upper waters of the Saskatchewan.

WHAT STRATHCONA WANTS

More Pay Roll. More Tail Chimneys. More Wholesale Houses.

Every industry for which we have the raw material, cheap fuel, low taxation, a growing market and excellent transportation facilities.

LOCAL ITEMS

—The Imperial Bank now opens for business Saturday evenings.

—Edmonton Camp Woodmen of the World commence the winter session of meetings tonight in Unity Hall.

—The Merchants Bank will hereafter keep open till 1 p.m. on Saturday and also open Saturday evenings.

—The first rehearsal for Haydn's Creation will be held this evening at 8 o'clock in McDougall Methodist church. All singers are invited to be present.

—In the book published entitled "Manners and Mores for Men," the positions of Regina and Edmonton are reversed by the Semi-Ready Company, the latter town appearing as the chief provincial seat of Saskatchewan, and the former being credited to Alberta. "It was all right in the proofs," said the editor of the book, "but it was a case where the intelligent job compositor got in his head." I hope that your citizens will not blame the

Mr. Charles Mair, of Lethbridge, was the guest of his brother-in-law, Mr. W. H. McKinney, M.P.P., for St. Albert, yesterday. Mr. Mair is a gentleman of considerable literary ability and his writings are well known throughout the Dominion. One of Mr. Mair's poems, entitled "Open the Bay," which was written a quarter of a century ago on the Hudson's Bay route, is now apparently nearing fulfillment.

—Fort Saskatchewan Reporter.—A painful accident occurred on Ross street Thursday forenoon, whereby Mr. Dutoit in the employment of Mr. Geo. S. Hill, furniture dealer had his leg broken. It appears that he was sitting on top of a load of furniture which was being driven round to the new warehouse, when the wheels of the dray struck the crossing which leads to the lane between the Queens hotel and Mr. Hill's warehouse, Mr. Dutoit was thrown to the ground by the jerk and several bundles of chairs which were on the dray fell on his leg breaking it below the knee.

—Wetaskwin Times.—The Alberta Farm and Live Stock Company, owners of "The Rosengrass Ranch," of which Mr. R. J. Daley is the president and manager, has this week purchased from Mr. Camille David of Ferry Point, his large ranch comprising about 2000 acres together with all his herds of live stock—about 1000 head of horses and cattle, also the farming implements, machinery, grain, hay, etc. upon the premises. This combination makes the strongest live stock company in Central Alberta and will be a power in securing higher prices for export cattle in this district.

Rev. Dr. John McDougall, the veteran pioneer and missionary, of Calgary, was in the city yesterday on his way to the Doukhobor settlements at Langham, Sask. Dr. McDougall retired from the active work of the ministry last summer, after 46 years of continuous pioneer and missionary work, which was closed by a year of service as president of the conference of the North-West Territories. Dr. McDougall is now commissioned to do special immigration work for the Dominion government, and a report will soon be made.

—British Columbia is to have a provisional sanatorium for consumptives. Dr. G. J. Fagan, provincial medical health officer has been looking up a site for the institution throughout the province and has returned to Vancouver after a tour of inspection. He stated that the sanatorium would probably be erected at Kamloops Lake, and that he was in favor of building a smaller sanatorium at a point higher than Kamloops Lake where it would not be so hot and where patients should be removed from Kamloops. In order to take advantage of the Hon. Jas. Danahy's offer, it was necessary for the citizens of the province to raise \$40,000 in a month. A committee of business men in New Westminster is already working to raise Westminister's share of the contribution and Dr. Fagan hopes before he leaves Vancouver to have a committee of business men busily engaged in raising money in Vancouver.

—Calgary Alberta.—The banging of hammers and the buzzing of saws will again be heard in Calgary tomorrow morning. The builders' strike is settled. These few words seem insignificant ones in themselves and what a mountain of difference they make to Calgary and Calgarians. From early yesterday afternoon up until a short time before midnight last night negotiations were on towards the settlement of the trouble existing between the men and their employers, the members of the Builders' Exchange. For a long time the result of the conferences swung like the pendulum of a clock, first one way and then another until finally through cool calculating minds a settlement was reached. If obeyed in its literal meaning it will mean that Calgary has seen the last of her building strike troubles for the future.

SOCIAL AND PERSONAL

George Pack of Kinistino avenue returned yesterday from a trip to the east.

Rev. John McDougall came up from Calgary yesterday.

W. C. Dunn returned to White Whale Lake yesterday.

R. B. Hanning of Cranbrook district, agent for the Cranbrook Lumber Co., is in the city and is registered at the St. James Hotel.

SOCIAL NOTES

Mrs. Bryce J. Saunders is entertaining at the tea hour this afternoon for Mrs. Oliver, of Ottawa.

Miss Cushing's many friends in Edmonton will be pleased to hear she is rapidly recovering from her recent operation for appendicitis, which was performed at Victoria, where she has been visiting.

The following item, clipped from the Winnipeg Free Press will be of interest to many Edmontonians as the contracting parties are very popular here: A quiet but very pretty wedding took place at the home of A. R. Hooper, Carberry, on Thursday, at 4, when H. J. Millar, manager of the Bank of Commerce, Wetaskwin, and Miss Kathleen Hooper of Edmonton, were united in the holy bonds of matrimony. The ceremony, which was performed by Rev. Mr. Smith, took place at half past nine in the evening, and was attended by the immediate relatives and friends of the bride and groom.

After the service the bridal party returned to the home of Mr. Hooper, where a delicious supper was served, and several pleasant hours spent before Mr. and Mrs. Millar left on the west bound train for Banff and other western cities.

Mrs. Hislop was the hostess of a pleasant and informal gathering yesterday afternoon, between the hours of five and six, in honor of her mother Mrs. Frank Oliver, of Ottawa, who is visiting her old home for a few days. The graceful young hostess, attired in a lovely gown of black point d'esprit, received at the entrance of the drawing room, which was fragrant with the perfume of delicate pink roses, Mrs. Oliver assisting her, wearing a handsome reception gown of golden brown, with hat of the same tone, and seemed delighted to be at home again. In the tea room, Mesdames Pardee and Jackson, all in lovely gowns, assisted by three pretty and winsome maidens, Misses Ann Oliver, McKenny and the debutante of tomorrow, Miss Beatrice Beck, had charge of the tea table, the floral decorations of which were composed of dark red geraniums. Among the guests were Mrs. Buley, wife of our Lieutenant-Governor, who was charmingly dressed in black lace. Mesdames Pardee, Beck, Jackson, Barford, Dawson, Turnbull, Saunders, Campbell, Norway, Thibodeau, Wilson, D. W. MacDonald, C. W. McDonald, Almon, Emery, Wallace, McDonald, Forin, Marshall, Swaisland, Smith, Nightingale, Cadley, Charlesworth, McMahon, Jellott, Ewing, McKenny, Watt, Somerville, Fraser, Bown, D. McKinnon, Hubbell and Misses Gascoigne, Somerville, McDougall, Currie, McKenny, MacIsaac, Beck, Oliver, Wishart and Kerr.

BOARD OF TRADE.

The board of trade will meet in the city council chamber on Thursday afternoon at 3.30 in its regular general monthly meeting.

WHITE WHALE TOWNSITE.

J. H. McLean, surveyor for the Indian department, who has been laying out the Wabumun townsites on the Indian reserve at White Whale Lake, is in the city, having completed his work there. Mr. McLean reports the Indian townsites as being an ideal one and the natural commercial centre of the White Whale Lake district. He has a little joke, by the way, on the townsites additions. He calls the main street of the town Jasper avenue extension. It is on the Fifty-second base line, the same as Edmonton.

Mr. R. C. U. Lett of Ottawa, representative for the Heintzman Piano Co. and The Martin-Orme Piano Co. Ottawa, is in town. Mr. Lett will be pleased to call on parties who contemplate purchasing a reliable instrument, such as either of these old firms make. Also, Mr. Lett, who is a graduate of the New Eng. Conservatory of Music, Boston, will undertake to tune and regulate a limited number of pianos. Orders left at No. 180 Jasper St. Edmonton will receive prompt attention.
